Tutorial Suspend Account cPanel

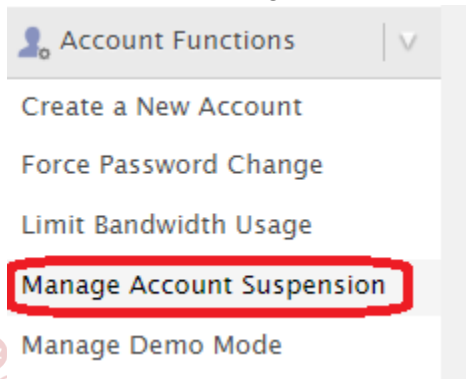

1. Login ke Account WHM

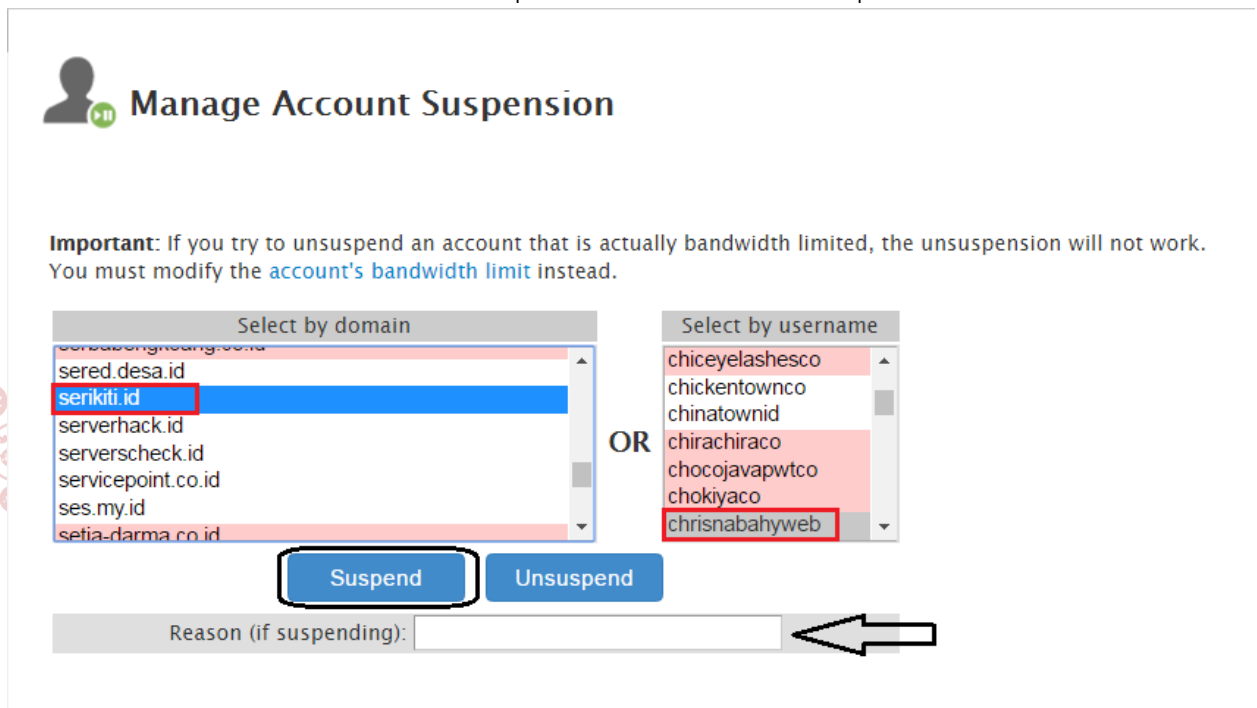

2. Setelah berhasil Login, pilih menu **Account Function**

3. Kemudian klik Manage Account Suspension

4. Cari nama account cpanel yang akan di suspend. Bisa menggunakan nama domain atau menggunakan username account cPanel. Kalau sudah, klik suspend di bagian bawah kolom kemudian isi alasan kenapa account tersebut di suspend.

5. Jika proses suspend account berhasil, akan muncul tampilan seperti berikut :

Manage Account Suspension

Suspension of serikiti.id

```
